

KASTEL ENTERPRISES

OUR CUSTOMER SERVICE IS THE DIFFERENCE.

Kastel Enterprises is a certified woman owned small business that was formed in 2014 and rebranded in 2019 with the intent to specialize in disaster response, facility support, work force housing, and wrap around services. We are committed to creating ease of experience with our standard of excellence for customer service and support. Our goal is to provide impeccable service with a team of dedicated staff that take pride in what they do. Our customer service is our difference.

As a full-service work force housing company (base camp), our services extend far beyond just setting up tents. We provide a start to finish approach to any project regardless of how large or small. We have construction capabilities to include debris removal, site prep work, dredging and restoration, if necessary, semi- permanent structure tent erection (Tents last up to 25 years), and steel building construction.

Once site prep is finalized we have capabilities to provide a full, turn-key base camp including, site design, billeting or hard-sided sleep quarters; restroom, shower, and laundry trailers; food service (catering and drop off); fueling services (including – supply, storage, and distribution); camp badging and security services (armed and unarmed guards); power supply and distribution; communications (radio, satellite, and Wi-Fi); janitorial services (cleaning, grounds keeping, and linen service); and full service site management.

Our clients include private sector and government agencies through North America, the Bahamas, the American Virgin Islands, and Puerto Rico.
